
Next Ask the Expert Chat Session...28/8/09 3-4pm

Posted by cazadmin - 2009/07/23 10:02

Our next Ask the Expert chat session will be on Friday August 28 from 3pm to 4pm. Our Expert this time will be Aaron Thompson whose area of expertise is fertility preservation...

Aaron Thompson is a specialist adolescent and young adult cancer nurse who recently undertook an extensive project on behalf of the Queensland Paediatric Haematology Oncology Network into the fertility preservation of adolescent and young adults with cancer.

During the project, Aaron looked at current evidence on fertility preservation as well as international survivorship data; he developed resources to educate clinicians working with this age group to assist in improving their knowledge and practice; and age appropriate education resources for adolescent and young adult patients to understand the preservation methods.

To ensure your questions are answered, you are very welcome to email them prior to August 28 to revive@leukaemia.org.au, otherwise just ask them during the session!

We really hope that you can join us and look forward to chatting with you then!

Please note: There will be a link from the Home Page to the chat login page. This will go up about 10 minutes prior to the session at 3pm.
