
CML - Telephone Support Group

Posted by SwanValleySue - 2008/10/31 12:34

Good Morning All

CML is a rare blood cancer and with new targeted therapy people with CML are starting to have a good prognosis for the chronic form of the disease.

There are so few CML people not only in Australia but worldwide that those with the condition are great at discussing issues that impact upon them.

The Australian LF are supporting the CML Group with their own telephone conferencing monthly chat.

The telephone group is formed to educate, discuss issues and have support. CMLers have great knowledge and are willing to share their experiences.

If anyone (CMLers, their carers or family, medical teams) would like to participate please register with Anthony Steele of the LF so that the first telephone group can commence.

asteele@leukaemia.org.au

Note: On the talkbloodcancer home page is a survey with the view to find out if other people with conditions would like telephone discussions for other conditions.

Cheers
Sue

CML - Telephone Conferencing Dates for 2009

Posted by SwanValleySue - 2008/12/22 13:23

CML Telephone Conferencing Dates for 2009

CML TC has been booked for every third Thursday of 2009 for a duration of 1.5 hours

If you wish to participate please register.
Email Helen Moore on her email address: hmoore@leukaemia.org.au

Plan Ahead

18th December 2008 (really successful)

2009

15th January 2009
19th February
19th March
16th April
21st May
18th June
16th July
20th August
17th September
15th October
19th November
17th December 2009

Please note:

Participants to the Telephone Conference Forums must

Register for each Forum Date

This is so that the LF Support Network has an idea of numbers and can book the line.
